

RefectoCil No. 1 Pure Black Eyelash and Eyebrow Tint, 15 ml.

Brilliant Black – create the most beautiful black styles

Pure Black No. 1 by RefectoCil is an intense, pure and rich black hue. Enhance sensuous raven-haired looks in a mind-blowing way – with expert colouring by RefectoCil.

- Long, dark and full eyelashes
- Perfectly defined eyebrows
- Lasts up to 6 weeks
- Content: sufficient for approximately 30 applications
- Individually customizable colour, 9 base shades, 8 mixable!

Target group:

RefectoCil No.1 dyes the hair an intense, luscious black

- For tinting eyebrows of clients who have very dark, black hair
- For tinting lashes of clients who ask for a dramatic eye-catching look

Application:

- Preparation: use RefectoCil Silicone Pads or Skin Protection Cream and Eye protection papers according to instructions.
- Mix 2 cm of tint and 10 drops of RefectoCil Oxidant liquid or 15-20 drops of RefectoCil Oxidant cream to create a creamy paste. Apply to eyelashes and eyebrows.
- Leave on for 10 minutes.
- Remove by using cotton wool and water.

If RefectoCil Blonde Brow has been previously used, the application time is shortened by 1-5 minutes, with RefectoCil Eyelash perm it's shortened to 2 minutes.

Ingredients:

Aqua, Cetearyl Alcohol, Toluene-2,5-Diamine, m-Aminophenol, Bis-Diglyceryl Polyacyladipate-2, PEG-40 Hydrogenated Castor Oil, Sodium Cetearyl Sulfate, 2,4-Diaminophenoxyethanol, Sodium Laureth Sulfate, CI 77499, CI 77491.

GROUP DATA SHEET
Hair colorants (oxidative)
Last modified: 2016-02-05, GWC

1. Identification of the product

Mixture of colouring agents on a cream or gel basis for use in combination with oxidising agents to colour hair.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EU Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possible commercial uses.

Irritating to eyes and skin; product may trigger an allergic reaction.

3. First aid measures

Measures in the event of

–contact with eyes: rinse thoroughly with plenty of lukewarm water immediately (remove contact lenses first); then consult a doctor (ophthalmologist) without delay.

–ingestion of larger amounts: do not induce vomiting. Rinse out mouth and drink about one to two glasses of water. Where appropriate, consult competent Poison Control Centre or doctor.

–contact with skin: immediately wash off with water and soap; skincare. If skin irritation occurs, consult doctor.

When consulting a doctor or a Poison Control Centre always have packaging or label and possibly package insert available.

4. Fire fighting measures

All common extinguishing agents are suitable.

5. Accidental release measures; disposal considerations

In the event of spillage/leakage: mop up main volume with cloths; when larger amounts are involved, dispose of cloths or mopping up material by controlled disposal. Remove rest with water and common cleaning agent. Wear suitable protective gloves (see 6.)

Packaging should be recycled after residual emptying. Filled, unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

6. Handling and storage

Must be used in accordance with manufacturer's instructions, wear gloves (single-use gloves in accordance with DIN EN 374 of PVC or nitrile). Avoid contact with textiles. Observe any warnings on packaging.

Avoid contact with eyes or facial skin.

Reseal container after use. Use immediately after mixing with oxidising agent. Dispose of any left-over application mixture after completion of colour treatment.

Store in a cool and dry place (not above room temperature).

7. Other information

Refer to conditions of use and any warnings on the product or packaging.

For consultation in the event of poisoning, the Poison Control Centres have additional details about the individual products. When consulting a Poison Control Centre always keep packaging or label and possibly package insert available.

GROUP DATA SHEET
Hair colorants (oxidative)
Last modified: 2016-02-05, GWC

1. Identification of the product

Mixture of colouring agents on a cream or gel basis for use in combination with oxidising agents to colour hair.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EU Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possible commercial uses.

Irritating to eyes and skin; product may trigger an allergic reaction.

3. First aid measures

Measures in the event of

–contact with eyes: rinse thoroughly with plenty of lukewarm water immediately (remove contact lenses first); then consult a doctor (ophthalmologist) without delay.

–ingestion of larger amounts: do not induce vomiting. Rinse out mouth and drink about one to two glasses of water. Where appropriate, consult competent Poison Control Centre or doctor.

–contact with skin: immediately wash off with water and soap; skincare. If skin irritation occurs, consult doctor.

When consulting a doctor or a Poison Control Centre always have packaging or label and possibly package insert available.

4. Fire fighting measures

All common extinguishing agents are suitable.

5. Accidental release measures; disposal considerations

In the event of spillage/leakage: mop up main volume with cloths; when larger amounts are involved, dispose of cloths or mopping up material by controlled disposal. Remove rest with water and common cleaning agent. Wear suitable protective gloves (see 6.)

Packaging should be recycled after residual emptying. Filled, unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

6. Handling and storage

Must be used in accordance with manufacturer's instructions, wear gloves (single-use gloves in accordance with DIN EN 374 of PVC or nitrile). Avoid contact with textiles. Observe any warnings on packaging.

Avoid contact with eyes or facial skin.

Reseal container after use. Use immediately after mixing with oxidising agent. Dispose of any left-over application mixture after completion of colour treatment.

Store in a cool and dry place (not above room temperature).

7. Other information

Refer to conditions of use and any warnings on the product or packaging.

For consultation in the event of poisoning, the Poison Control Centres have additional details about the individual products. When consulting a Poison Control Centre always keep packaging or label and possibly package insert available.

RefectoCil No. 3.1 Light Brown Eyelash and Eyebrow Tint, 15 ml.

Luscious Light Brown – brighten up your style

Light Brown No. 3.1 by RefectoCil is a natural, versatile light hue. Enhance dark blonde to light brown hair in a dazzling way – with expert colouring by RefectoCil.

- Long, dark and full eyelashes
- Perfectly defined eyebrows
- Lasts up to 6 weeks
- Content: sufficient for approximately 30 applications
- Individually customizable colour, 9 base shades, 8 mixable!

Target group:

RefectoCil No. 3.1 is a natural soft brown

- Ideal for women with light brown hair
- Women who like a natural style
- Suitable for mixing with other RefectoCil colours.

For example: with natural brown to create a wide range of brown.

Application:

- Preparation: use RefectoCil Silicone Pads or Skin Protection Cream and Eye protection papers according to instructions.

GROUP DATA SHEET

Hair bleach (Paste)

Last modified: 2016-02-04, GWC

1. Identification of the product

Bleaching agents in a paste or a gel to be used in combination with oxidation agents or special bleaching emulsions.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EU Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possible commercial uses. Irritates eyes and skin. Has an oxidising effect!

3. First aid measures

Measures in the event of

- Contact with eyes: rinse thoroughly with plenty of lukewarm water immediately; then seek medical aid without delay.
- ingestion: do not induce vomiting. Rinse out mouth and drink about one glass of water. Then consult doctor.
- contact with skin: immediately wash off with water and soap; skincare. Remove contaminated clothing and towels. If skin irritation persists, consult doctor.

When consulting a doctor or a Poison Control Centre always have packaging or label and possibly package insert available.

4. Fire fighting measures

All common extinguishing agents are suitable.

5. Accidental release measures; disposal considerations

In the event of spillage/leakage: mop up with plenty of water but not with combustible material like for instance paper. Wear appropriate protective gloves (see 6.)

Packaging should be recycled after residual emptying. Filled unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

6. Handling and storage

Must be used in accordance with manufacturer's instructions. Observe any warnings on packaging.

Wear gloves (single use gloves in accordance with DIN EN 374 of PVC or nitrile). Mix carefully into the hydrogen peroxide solution! Reseal tube after use.

Avoid contact with eyes and skin by all means. Only use on unabraded skin.

Store in a cold and dry place (room temperature).

Product is oxidising / flammable. Do not expose to extreme heat (e.g. sunlight). Do not store close to naked flames or sources of heat (radiators) or use in the direct vicinity of hooded driers and infrared lamp hairdryers.

Do not bring into contact with combustible material like paper and wood: risk of ignition! Do not mix with reducing substances such as permanent wave lotions.

7. Other information

Refer to conditions of use and any warnings on the product or packaging.

For consultation in the event of poisoning, the Poison Control Centres have additional details about the individual products.

When consulting a Poison Control Centre always keep packaging or label and possibly package insert available.

RefectoCil Oxidant 3% Developer Cream

Cream-based Developer, 100 ml.

Creamy developer

Oxidant 3 % cream is a stabilised cream-based developer for RefectoCil eyelash or eyebrow tint. Different to Oxidant 3% developer liquid, its creamy consistency makes mixing with RefectoCil tints even more convenient. RefectoCil Blonde Brow is only to be used with RefectoCil Oxidant cream.

Benefits:

- Dropping device: allows the drops to be dispensed precisely and economically.
- Dispenser: guarantees that no impurities can get into the bottle.

Tip:

- Also available: RefectoCil Oxidant developer liquid, for everyone, who prefers liquid to creamy consistency. Whether the one or the other is being used, the colour result is the same, just pick the one that suits you best.

Application:

- Preparation: use RefectoCil Silicone Pads or Skin Protection Cream and Eye protection papers according to instructions.
- Mix 2 cm of tint and 15-20 drops of RefectoCil Oxidant cream to create a creamy paste. Apply to eyelashes and eyebrows.
- Leave on for 5-10 minutes.
- Remove by using cotton wool and water.

If RefectoCil Blonde Brow has been previously used, the application time is shortened by 1-5 minutes, with RefectoCil Eyelash Curl it's shortened to 2 minutes.

Ingredients:

Aqua, Hydrogen Peroxide, Cetearyl Alcohol, Triethanolamine, Cetearth-20, Phosphoric Acid, Sodium Cetearyl Sulfate.

GROUP DATA SHEET Oxidation products Last modified: 2016-02-05, GWC

1. Identification of the product

1. Liquid or cream products with stabilised hydrogen peroxide to be used as a developer in a mixture with oxidation hair colouring agents or bleaches.
2. Liquid or cream products with stabilised hydrogen peroxide to be used as a permanent wave neutraliser; ready for use or for dilution with water in the recommended proportions.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EU Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possible commercial uses.

Irritates the eyes and the skin. Can cause an allergic reaction. Has an oxidising effect.

3. First aid measures

Measures in the event of

- contact with eyes: remove contact lenses, if present, immediately, then rinse thoroughly with plenty of lukewarm water immediately; then consult doctor (ophthalmologist) without delay.
- ingestion: do not induce vomiting. Rinse out mouth and drink about one to two glasses of water. Then consult doctor.
- contact with skin: immediately wash off with water; skincare. Remove contaminated clothing and towels. If skin irritation occurs, consult doctor.

When consulting a doctor or a Poison Control Centre, always have packaging or label and possibly package insert available.

4. Fire fighting measures

All common extinguishing agents are suitable.

5. Accidental release measures; disposal considerations

In the event of spillage/leakage: mop up with plenty of water but not with combustible material like, for instance, paper. Wear appropriate protective gloves (see 6.)

Packaging should be recycled after residual emptying. Filled unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

Attention: Danger of slipping.

6. Handling and storage

Must be executed according to manufacturer's instructions. Wear gloves (single use gloves in accordance with DIN EN 374 of PVC or nitrile). Avoid contact with textiles. Observe any warnings on packaging.

Avoid contact with eyes and facial skin.

Store in a cool and dry place (not above room temperature). Close container after use. Avoid contact with metal.

Heat or the import of impurities into the container can lead to decomposition and over-pressure.

Product has an oxidising effect.

7. Other information

Refer to conditions of use and any warnings on the product or packaging.

When consulting a Poison Control Centre always keep packaging or label and possibly package insert available.

RefectoCil Micellar Eye Make-Up Remover

150 ml.

Micellar Eye Make-up Remover – cleans & strengthens lashes

The new RefectoCil Eye Make-up Remover attracts eye make-up magnetically thanks to the new Micellar technology and cleans thoroughly – no rubbing! For an ideal tinting result and long-lasting duration use RefectoCil Micellar Eye Make-up Remover before styling the eye area. The new formula is lash strengthening and oil free.

Tip:

Also use RefectoCil Micellar Eye Make-up Remover on clients not wearing any make-up to make sure skin lipids are removed and therefore optimum tinting result is ensured.

Refer to conditions of use and any warnings on the product or packaging.

When consulting a Poison Control Centre always keep packaging or label and possibly package insert available.

RefectoCil® Saline Solution

150 ml.

Cleanses the eye area thoroughly

To achieve the best possible result cleanse the eye area thoroughly with RefectoCil® Saline Solution before or after the application of RefectoCil® Eyelash Curl or eyelash and eyebrow tints. This way possible excess of surfactants is removed, which could especially compromise the effect of Eyelash Curl.

2 areas of application:

- Eyelash Curl: to guarantee optimal adhesion of eyelash roller and optimum effect of active substances.
- Eyebrow and eyelash tint: to achieve the best possible tinting result.

Additional Information:

- Avoid contact with eyes.
- Not suited for rinsing contact lenses.
- Suited for cleaning brushes and application dishes.

Application:

Pour a few drops of RefectoCil® Saline solution onto a cotton wool ball and wipe softly across the eyelid, lashes and eyebrows.

Ingredients:

Aqua, Sodium Chloride, Sodium Benzoate, Potassium Sorbate, Citric Acid.

GROUP DATA SHEET Skin cleansing products, liquid (hand cleansing gels, wash gels, wash lotions) Last modified: 2016-02-05

1. Identification of the product

Liquid products for cleansing and degreasing of skin, also for application in the eye area.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EU Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possibly to commercial uses.

3. First aid measures

Measures in the event of

- Contact with eyes: remove contact lenses, if present, then rinse immediately with plenty of lukewarm water; if irritation occurs, consult doctor (ophthalmologist) without delay.
- Ingestion of larger amounts: do not induce vomiting. Rinse out mouth and drink about one glass of water. If you feel unwell, consult Poison Control Centre or doctor. In the case of babies/infants always inform the Poison Control Centre or doctor as a precautionary measure.
- Contact with skin: wash off with water; skincare. If skin irritation occurs, consult doctor.

When consulting a doctor or a Poison Control Centre always keep packaging or label and possibly package insert available.

4. Fire fighting measures

All common extinguishing agents are suitable.

5. Accidental release measures; disposal considerations

In the event of spillage/leakage: Remove with water or common cleaning agent.

Packaging should be recycled after residual emptying; minor product residues may be rinsed out. Filled, unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

6. Handling and storage

Must be carried out according to manufacturer's instructions. Observe any warnings on packaging.

Avoid contact with eyes. In the event of frequent professional use of the product and high skin exposure preventive skin protection and the use of skincare products is recommended.

Store in a cool and dry place (not above room temperature).

7. Other information

Refer to conditions of use and any warnings on the product or packaging.

When consulting a Poison Control Centre always keep packaging or label and possibly package insert available.

Brow & Lash Foam by RefectoCil

The perfect preparation before any brow or lash service!

The most important step before every brow & lash treatment: a deep and thorough cleaning of the area around the eyes and brows!

A make-up free working area is key to achieve optimal colour intensity for tinting, because clean brows will ensure that the tints can be absorbed properly.

The Brow & Lash Foam effortlessly removes make-up residues, small dirt particles and excess grease. Its creamy and fluffy consistency makes it very easy to apply to brows & lashes before any professional treatment. It contains Aloe Vera, which makes the skin soft and supple. The formulation is pleasantly mild & calming and refreshes the skin without drying it out.

- With moisturizing Aloe Vera
- Moisturizing & nourishing
- Suitable for all skin types
- Suitable for sensitive skin

Ingredients

Aqua, Coco-Glucoside, Sodium Coco-Sulfate, Alcohol, Aloe Barbadensis Leaf Juice, Glycerin, Glyceryl Oleate, Citric Acid, Sodium Levulinate, Parfum, Sodium Anisate, Levulinic Acid, Limonene, Potassium Sorbate, Sodium Benzoate, Linalool, Tocopherol, Hydrogenated Palm Glycerides Citrate

RefectoCil® Tint Remover

150 ml.

The soft colour stain remover

Stains that develop during tinting can be removed easily and quickly with RefectoCil® Tint remover. Thanks to the mild formula, the product can be used even in the sensitive eye area without concern.

Tip:

The quicker the stain is treated the easier its removal.

Do not apply directly on the eyelashes or eyebrows to avoid affecting the tinting result.

Application:

Immediately after tinting, dampen a cotton ball or a Q-tip with RefectoCil® Tint remover and gently rub off the stain.

Ingredients:

Aqua, Isopropyl Alcohol, Polysorbate 80, Citrus Limonum, Limonene, Litsea Cubeba Fruit Oil, Citral, Linalool, Citronellol, Geraniol.

GROUP DATA SHEET

Tint remover

Last modified: 2016-02-08, GWC

1. Identification of the product

Liquid products mainly consisting of water, alcohols and active agents for the removal of stains of oxidative eyelash and eyebrow tints.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EU Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possible commercial uses.

Products may be flammable.

3. First aid measures

Measures in the event of

– Contact with eyes: If present, remove contact lenses immediately. Then rinse thoroughly with lukewarm water immediately; if irritation persists, consult a doctor (ophthalmologist) without delay.

– Ingestion of larger amounts: do not induce vomiting. Rinse out mouth, drink a quantity of water. Where appropriate, consult Poison Control Centre or doctor.

When consulting a doctor or a Poison Control Centre always have packaging or label and possibly package insert available.

4. Fire fighting measures

All common extinguishing agents are suitable. Follow local fire protection regulations.

5. Accidental release measures; disposal considerations

In the event of spillage/leakage: mop up main volume with cloths; when larger amounts are involved, dispose of cloths and mopping up material by controlled disposal – risk of fire. Remove rest with plenty of water and common cleaning agent. Provide well ventilated rooms. Avoid open flames and sparks (light switch).

Packaging should be recycled after residual emptying. Filled, unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

6. Handling and storage

Must be used in accordance with manufacturer's instructions. Observe any warnings on packaging.

Store in a cool and dry place (not above room temperature). Reseal bottle after use.

Product may be flammable. Do not expose to extreme heat (e.g. radiators). Do not store close to naked flames or sources of heat or use in their direct vicinity.

7. Other information

Refer to conditions of use and any warnings on the product or packaging.

For consultation in the event of poisoning, the Poison Control Centres have additional details about the individual products. When consulting a Poison Control Centre always keep packaging or label and possibly package insert available.

RefectoCil Silicone Pads

2 pieces

Lash tinting fast, simple & safe

RefectoCil Silicone Pads are a timesaver and make tinting without irritating the skin possible.

- Self-adhesive and anti-slip, no cream needed
- Extra soft, skin-friendly high-tech silicon, adjusts to every eye-form
- 100 % impermeable
- Reusable up to 100 times
- Cleansing: water or liposoluble washing-up liquid, afterwards they are immediately ready for reuse
- Dermatologically and microbiologically tested

Tip:

- Put Silicone Pads into the refrigerator to achieve a cooling effect against heat or pouches.

Application:

- Apply RefectoCil Silicone Pads with the glossy side onto the skin, directly below the eye lid and press them gently on the skin.
- Apply RefectoCil eyelash tint.
- After the application time, remove the eyelash tint directly from the Silicone Pads with a wet cotton pad.
- Cleansing: If further cleansing is desired, it can be done by both disinfection and sterilization.

Disinfection:

- Disinfection with an Ultrasonic device or with UV-light
- Sterilization:
- Sterilization with hot air
- At 180 degrees Celsius for 30 minutes
- At 170 degrees Celsius for 60 minutes
- At 160 degrees Celsius for 120 minutes
- Sterilization with water steam up to 100 degrees Celsius
- Sterilization by placing the products in a pan of boiling water

RefectoCil Eyelash Lift

36 Applications

For longer and thicker looking lashes in just 13 minutes! The effect lasts 6 weeks.

RefectoCil Eyelash Lift lifts lashes and creates an intense, wide-eyed look. The lift makes your natural lashes look significantly longer and thicker. Unlike RefectoCil Eyelash Curl, where the lashes are given a U-shaped curl, Eyelash Lift lifts the lashes up. The unique formula containing collagen & cysteine works in JUST 13 minutes. The especially developed lifting pads, made in Germany, fit along the curvature of the lid perfectly, are available in 3 sizes, and can be used up to 100 times. You can colour your lashes immediately after the lifting treatment.

Content:

- á 2 Lifting Pads S, M, L
- 2 x tubes lashperm 3,5 ml **NEW appl. time 8 min!**
- 2 x tubes neutralizer 3,5 ml **NEW appl. time 5 min!**
- 1 x bottle glue 4 ml **NEW formula!**
- 1 x rosewood stick
- 2 x mini-cosmetic dishes
- 2 x cosmetic brushes

Application:

- Remove contact lenses. Clean the eye area with Micellar eye make-up remover and Saline solution.
 - Select the lifting pad size depending on length and desired effect.
 - Apply glue to the back of the lifting pads - allow it to dry. Attach the pad to the eyelid.
 - Apply glue on lifting pad and fix lashes.
 - Apply lashperm – 8 min.
 - Apply neutralizer – 5 min.
 - Tint lashes while they still are on the pad – 2 min.
 - Remove colour and pads with wet cotton.
- Detailed information: see package insert

Ingredients:

- Lashperm: Aqua, Thiolactic Acid, Cetearyl Alcohol, Ammonia, Ammonium Bicarbonate, Hydrolyzed Collagen, Cetareth-20, Parfum, Sodium Cetearyl Sulfate, Cysteine Hcl, Sodium Laureth Sulfate, Ci 47005, Sodium Sulfate.
- Neutralizer: Aqua, Cetearyl Alcohol, Hydrogen Peroxide, Sodium Laureth Sulfate, Citric Acid, Sodium Phosphate, Parfum.
- Glue: Water, Alcohol denat., PVP, Shellac, Hydroxyethylcellulose, Ammonia

GROUP DATA SHEET

Permanent waves (alkaline/neutral)

Last modified: 2016-02-04, GWC

1. Identification of the product

Products for the permanent waving of hair. Applied in liquid form, as a cream/gel or mousse, with or without technical devices (e.g. appliances to build foam, heat sources). Often offered in combination packs with neutraliser.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EU Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possible commercial uses.

3. First aid measures

Measures in the event of

- contact with eyes: rinse thoroughly with plenty of lukewarm water immediately (remove contact lenses immediately); in any case consult a doctor, preferably an ophthalmologist, as a precautionary measure.
- ingestion of larger amounts: do not induce vomiting. Rinse out mouth and drink about one to two glasses of water. Immediately, consult competent Poison Control Centre or doctor.
- contact with skin: immediately wash off with water and soap; skincare. If skin irritation persists, consult doctor.
- Intensive inhalation: remove person affected to fresh air; if discomfort persists, consult Poison Control Centre or doctor.

When consulting a doctor or a Poison Control Centre, always have packaging or label and possibly package insert available.

4. Fire fighting measures

All common extinguishing agents are suitable.

5. Accidental release measures; disposal considerations

In the event of spillage/leakage: mop up main volume with cloths; when larger amounts are involved, dispose of cloths or mopping up material by controlled disposal. Remove rest with plenty of water and common cleaning agent. Wear suitable protective gloves (see 6.)

Packaging should be recycled after residual emptying. Filled, unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

6. Handling and storage

Must be used in accordance with manufacturer's instructions; wear gloves (single use gloves in accordance with DIN EN 374 of PVC or nitrile). Observe any warnings on packaging.

Do not mix with oxidising agents such as hydrogen peroxide or bleaches (loss of efficiency). Reseal container after use.

Avoid contact with eyes and facial skin by all means. Only use on unabraded skin.

Store in a cool and dry place (ambient temperature).

7. Other information

Refer to conditions of use and any warnings on the product or packaging.

For consultation in the event of poisoning, the Poison Control Centres have additional details about the individual products. When consulting a Poison Control Centre always keep packaging or label and possibly package insert available

RefectoCil Eyelash Curl

36 Applications

Relaunch for RefectoCil Eyelash Perm

NEW name – new style: RefectoCil Eyelash Curl comes in a cool, water-repellent bag that offers additional space. The glue has also been optimized, its new glass package guarantees maximum product quality and shelf-life.

The design may have changed, but the effect has not: Amazingly expressive eyes, glamorous look – RefectoCil Eyelash curl opens the eyes and lets them appear bigger due to the upward swing. Therefore the look becomes warmer, more pleasant and approachable in every situation. The application is incredibly easy and the effect long lasting, up to six weeks. Thanks to the ingredients collagen and cysteine the eyelashes are nurtured while being curled. The gentle formula makes the application even for fine lashes possible.

Content:

- 2 x tubes lashperm 3,5 ml
- 2 x tubes neutralizer 3,5 ml
- 1 x bottle glue 4 ml
- 1 x rosewood stick
- 2 x mini-cosmetic dishes
- 2 x cosmetic brushes
- 18 eyelash rollers per size S, M, L, XL

Application:

- Remove contact lenses. Clean the eye area, remove any oils from eyelashes and eyelids. Pat dry. Briefly brush the lashes through to separate them.
- Select the roller size depending on length and desired curl.
- Attach roller: bend the self-adhesive roller until it forms a shape which corresponds with the curvature of the eyelid.
- Fix lashes on eyelash rollers
- Apply lashperm
- Apply neutralizer
- Remove eyelash rollers, dry eye area.
Detailed information: see package insert

Ingredients:

Lashperm: Aqua, Thiolactic Acid, Cetearyl Alcohol, Ammonia, Ammonium Bicarbonate, Hydrolyzed Collagen, Ceteareth-20, Parfum, Sodium Cetearyl Sulfate, Cysteine HCL, Sodium Laureth Sulfate, CI 47005, Sodium Sulfate.

Neutralizer: Aqua, Cetearyl Alcohol, Hydrogen Peroxide, Sodium Laureth Sulfate, Citric Acid, Sodium Phosphate, Parfum.

Glue: Water, Alcohol denat., PVP, Shellac, Hydroxyethylcellulose, Ammonia.

GROUP DATA SHEET

Permanent waves (alkaline/neutral)

Last modified: 2016-02-04, GWC

1. Identification of the product

Products for the permanent waving of hair. Applied in liquid form, as a cream/gel or mousse, with or without technical devices (e.g. appliances to build foam, heat sources). Often offered in combination packs with neutraliser.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EU Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possible commercial uses.

3. First aid measures

Measures in the event of

- contact with eyes: rinse thoroughly with plenty of lukewarm water immediately (remove contact lenses immediately); in any case consult a doctor, preferably an ophthalmologist, as a precautionary measure.
- ingestion of larger amounts: do not induce vomiting. Rinse out mouth and drink about one to two glasses of water. Immediately, consult competent Poison Control Centre or doctor.
- contact with skin: immediately wash off with water and soap; skincare. If skin irritation persists, consult doctor.
- Intensive inhalation: remove person affected to fresh air; if discomfort persists, consult Poison Control Centre or doctor.

When consulting a doctor or a Poison Control Centre, always have packaging or label and possibly package insert available.

4. Fire fighting measures

All common extinguishing agents are suitable.

5. Accidental release measures; disposal considerations

In the event of spillage/leakage: mop up main volume with cloths; when larger amounts are involved, dispose of cloths or mopping up material by controlled disposal. Remove rest with plenty of water and common cleaning agent. Wear suitable protective gloves (see 6.)

Packaging should be recycled after residual emptying. Filled, unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

6. Handling and storage

Must be used in accordance with manufacturer's instructions; wear gloves (single use gloves in accordance with DIN EN 374 of PVC or nitrile). Observe any warnings on packaging.

Do not mix with oxidising agents such as hydrogen peroxide or bleaches (loss of efficiency). Reseal container after use.

Avoid contact with eyes and facial skin by all means. Only use on unabraded skin.

Store in a cool and dry place (ambient temperature).

7. Other information

Refer to conditions of use and any warnings on the product or packaging.

For consultation in the event of poisoning, the Poison Control Centres have additional details about the individual products. When consulting a Poison Control Centre always keep packaging or label and possibly package insert available

RefectoCil Brow Lamination Kit

Approx. 15 applications

Design and fixate. For fuller looking brows.

RefectoCil Brow Lamination Kit allows you to design and fixate brows semi-permanently in any desired shape. The ingredient keratin has a hair strengthening effect and the application time is only 10 minutes. The brows can be coloured immediately after the treatment.

Contents

2x	Lash & Brow Perm 3,5ml
2x	Neutralizer 3,5ml
2x	Cosmetic Brushes
2x	Application Dishes
1x	Eye Care Pads (for free)

Application

1. Clean the brows using RefectoCil Micellar Eye Make-Up Remover. Use the RefectoCil Saline Solution to remove surfactants and any residual oil remaining on the skin. The skin and hairs must be dry before you begin the application process.
2. Use the rubber spoolie to brush through the eyebrows and comb them to the desired style.
3. Apply Lash & Brow Perm (1) to the entire brow. Start at the beginning of the brow and follow the direction that the eyebrows were brushed.
4. Avoid the skin around the brows as much as possible and use a dry cotton bud to tidy up undesired edges. Lash & Brow Perm Application Time: 6 minutes
5. Remove Lash & Brow Perm (1) using a dry cotton bud or cotton pad. Follow the direction that the hairs were combed. Correct individual hairs, if necessary.
6. Apply Neutralizer (2) with a brush. To do this, repeat the steps from Point 3. Application time: 4 minutes
7. Remove Neutralizer (2) using a damp cotton pad. Then use the RefectoCil Saline Solution to thoroughly clean the eyebrow area and completely remove any residue.
8. Dye the eyebrows using your selected RefectoCil tint, application time of just 3 minutes after Brow Lamination!
9. After removing the dye, use the rubber spoolie to return the eyebrows to the desired style. If necessary, use eyebrow scissors to trim any hairs that are too long.

Ingredients:

LASH & BROW PERM: Aqua (Water, Eau), Thiolactic Acid, Cetearyl Alcohol, Ammonia, Ammonium Bicarbonate, Hydrolyzed Keratin, Cetareth-20, Parfum (Fragrance), Sodium Cetearyl Sulfate, Cysteine HCl, Sodium Laureth Sulfate, Sodium Benzoate, CI 77491 (Iron Oxides)

NEUTRALIZER: Aqua (Water, Eau), Cetearyl Alcohol, Hydrogen Peroxide, Sodium Laureth Sulfate, Citric Acid, Sodium Phosphate, Parfum (Fragrance)

RefectoCil Skin Protection Cream & Eye Mask 75 ml.

Care, Protection & adhesion of RefectoCil Eye Protection Papers

Vitamin E, aloe vera and sweet almond oil – 3 natural, high-quality ingredients that nurture the skin whilst tinting eyelashes and eyebrows. Developed especially for adhesion of eye protection papers, RefectoCil Skin Protection Cream & Eye Mask also provides improved colour impermeability.

- Especially suitable for the sensitive eye area
- New formula: paraffin-, silicone oil-, PEG- and Lialil free
- Intense care on a natural basis
- Sufficient for approximately 150 applications

Tip:

Additional bonus: also suitable for being used as a moisturizing face or hand mask with anti-aging effect:

- During tinting: after removing tint, massage the rest of the cream in or use it to massage the hands
- Use as mask only: let it work in for 5 minutes, then massage the rest in

Application:

- Apply on the lower and upper eyelid
- Encircle the eyebrow with cream in order to avoid staining in this area
- Also suitable as an eye mask (application time: 10 minutes)

Ingredients:

Aqua, Glycine Soja Oil, Glyceryl Stearate SE, Cetearyl Alcohol, Decyl Oleate, Glycerin, Ethylhexyl Isononanoate, Cetearyl Nonanoate, Prunus Amygdalus Dulcis Oil, Butyrospermum Parkii Butter, Sodium Cetearyl Sulfate, Cera Alba, Aloe Barbadensis Leaf Juice, Citric Acid, Sodium Levulinate, Glyceryl Caprylate, Tocopheryl Acetate, Parfum, Sodium Anisate, Xanthan Gum, Cetearyl Glucoside, Panthenol, Potassium Sorbate, Sodium Benzoate, Disodium Phosphate, Potassium Phosphate, Tocopherol, Hydrogenated Palm Glycerides Citrate

GROUP DATA SHEET

Hair conditioner

Last modified: 2016-02-05, GWC

1. Identification of the product

Mainly opaque, partly coloured emulsions, fat mixtures or gels of cream-like consistency. Mostly in bottles or also in tubes or jars made of plastic.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EU Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possible commercial uses.

3. First aid measures

Measures in the event of

–contact with eyes: remove contact lenses, if present, then rinse immediately with plenty of lukewarm water; if irritation occurs, consult doctor (ophthalmologist) as a precautionary measure.

–ingestion of larger amounts: do not induce vomiting. Rinse out mouth and drink about one glass of water. Where appropriate, consult competent Poison Control Centre or doctor.

When consulting a doctor or a Poison Control Centre, always have packaging or label and possibly package insert available.

4. Fire fighting measures

All common extinguishing agents are suitable.

5. Accidental release measures; disposal considerations

In the event of spillage/leakage: mop up main volume with cloths; when larger amounts are involved, dispose of cloths and mopping up material. Remove rest with water and common cleaning agent.

Attention: danger of slipping.

Packaging should be recycled after residual emptying. Filled, unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

6. Handling and storage

Must be used in accordance with manufacturer's instructions. Observe any warnings on packaging.

Avoid contact with eyes.

Store in a cool and dry place (not above room temperature).

7. Other information

Refer to conditions of use and any warnings on the product or packaging.

When consulting a Poison Control Centre always keep packaging or label and possibly package insert available.

RefectoCil Care Balm

Night care for brows & lashes, 9 ml.

Intensive night care with castor oil

Rich plant oils and vitamins strengthen and groom the hair overnight while castor oil supports its natural growth. The innovative applicator has a brush for applying the Care Balm to the lashes & a broad flock applicator for brows.

- With castor oil: supports natural brow & lash growth
- for stronger, healthier brows & lashes
- for intensive care and regeneration for lashes & brows over night
- innovative applicator, ideal for lashes and brows

Target group:

- ideal for all who want special night care for their brows & lashes
- ideal for all who want to naturally support hair growth

Application:

After removing make-up in the evening apply the Care Balm to brows and lashes and leave it on as an overnight treatment.

Attention: Do not apply RefectoCil Care Balm within 24 hours after tinting because its high fat content can affect the tinting result.

Ingredients:

Ricinus Communis Seed Oil, Lanolin, Zea Mays Germ Oil, Cetearyl Alcohol, Cetyl Palmitate, Silica, Triticum Vulgare Germ Oil, Parfum, Tocopheryl Acetate, Tocopherol, Limonene, Linalool, Retinyl Palmitate.

RefectoCil® Lash & Brow Booster

2 in 1 – Double Effect, 6 ml.

One booster for both, brows and lashes!

For up to 56% longer lashes as well as thicker and broader brows with fewer gaps. When used daily first effects are visible after 6 weeks. After 10 weeks, the hair has grown significantly, say 93% of the test persons.*

The innovative applicator has a small tip for precise application to the lash line and a broad underside for the eyebrows.

- Dermatologically tested
- Ophthalmologically tested
- Free from synthetic hormones
- Free from prostamid and perfume

** Effectiveness and compatibility have been proven and confirmed by a renowned German institute with 30 test persons.*

Target group:

- ideal for clients who want natural eyelash growth
- Clients with thin, sparse, overplucked or patchy eyebrows

Application:

Use daily after cleansing your face at night. Apply a small amount with the narrow tip to the lash line and use the broad underside for applying the Lash & Brow Booster to clean and dry eyebrows. Initially a light, short-lived tingling can occur which is harmless.

Ingredients:

Aqua, Phenoxyethanol, C12-15 Alkyl Benzoate, Caprylyl, Glycol, Panthenol, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Biotin, Sodium Hydroxide, Alcohol, Sodium Hyaluronate, Black Sea Rod Oil, Phenethyl Caffeate, Hydrolyzed Glycosaminoglycans.

GROUP DATE SHEET
Skin Protection Cream, Lotion, Fluid and Gel
Last revision: 12th April, 2018 / GWC

1. Identification of the product

Products consisting of various fats, oils and waxes, possibly with pigments, also fat-free gels, with different active ingredients, partly perfumed, for skin protection and skin care.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EC Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possible commercial uses.

Product may be flammable.

3. Composition (maximum levels)

Waxes, oils and fats 99 %; Moisturising agents and skin care substances 50 %; Pigments 25 %; Emulsifiers 25 %; Ethanol 25 %; Conditioning agents 20 %; Surfactants 20 %; UV filters 15 %; Polymers and thickening agents 12 %; Other active ingredients (e.g. plant extracts, vitamins, tannins) 10 %; Other ingredients 5 %; Perfume oils 1 %; Preservatives 1 %; Water ad 100 %.

4. First aid measures

Measures in the event of

– Inadvertent contact with eyes: rinse thoroughly with plenty of lukewarm water immediately; if irritation persists, consult ophthalmologist as a precautionary measure.

– Inadvertent ingestion of larger amounts: do not induce vomiting. Rinse out mouth and drink about one glass of water. Where appropriate, consult Poison Control Centre or doctor.

When consulting a doctor or a Poison Control Centre always have packaging or label and possibly package insert available.

RefectoCil Application Set Mini

5 units mini tinting dishes, 5 units application sticks

Practical set for mixing and applying tints

Mix and apply tint comfortably with the RefectoCil Application Set Mini. It consists of 5 small, light, unbreakable mini tinting dishes and 5 application sticks that are equipped with an innovative comb.

- Tinting dish: the plain surface allows easy & quick cleaning
- The shape of the tinting dishes allows easy & safe placing of the Application sticks.
- Application sticks: when applying the tint, hairs are separated by the rills, the comb can be used before, after or inbetween the application, therefore a beautiful and smooth tinting result is ensured.

Application:

- Preparation: use RefectoCil Silicone Pads or Skin Protection Cream and Eye protection papers according to instructions.
- Mix 2 cm of tint and 10 drops of RefectoCil Oxidant liquid or 15-20 drops of RefectoCil Oxidant cream using the tinting dish to create a creamy paste. Apply to eyelashes and eyebrows with the grey Application sticks.
- Leave on for 5-10 minutes.
- Remove using cotton wool and water.

If RefectoCil Blonde Brow has been previously used, the application time is shortened by 1-5 minutes, with RefectoCil Eyelash perm it's shortened to 2 minutes.

RefectoCil Eyelash Lifter

Refill for RefectoCil Eyelash Lift

For precise and simple Lash Lifting

The new 'Eyelash Lifter by RefectoCil' is designed to allow easy lifting and a precise separation of lashes during the lash styling service.

This high-quality tool will help professionals to apply lashes to the Lifting Pads when performing lash styling services, its super-fine stainless steel tip is perfect to isolate and place lashes perfectly before applying the lash perm.

The brush can be used before and after the service.

In addition, the Eyelash Lifter is very easy to clean, assuring a high level of hygiene.

Application:

- Remove contact lenses. Clean the eye area with Micellar eye make-up remover and Saline solution.
 - Select the lifting pad size depending on length and desired effect.
 - Apply glue to the back of the lifting pads - allow it to dry. Attach the pad to the eyelid.
 - Apply glue on lifting pad and fix lashes.
 - Apply lashperm – 8 min.
 - Apply neutralizer – 5 min.
 - Tint lashes while they still are on the pad – 2 min.
 - Remove colour and pads with wet cotton.
- Detailed information: see package insert

RefectoCil Browista Toolkit

2 dual brushes & 2 Application Dishes

The expert kit

The Browista Toolkit offers Lash & Brow Styling experts the ideal tools for an elegant and quick application.

The kit contains 2 elegant dual brushes, each equipped with an innovative rubber spoolie as well as rose gold cuffs. The 2 brushes meet the needs of brow & lash experts: the spoolie allows brushing through brows and lashes before, between or after an application. The broad brush is ideal for covering the lashes with tint, the smaller one for precise work on brows. 2 application dishes and a practical bag for long-term storage of the products is also part of the Browista Toolkit.

Application:

when applying RefectoCil Blonde Brow:

- for an even bleaching result each hair must be completely covered from root to tip with the paste
- first: apply paste generously on the eyebrows in direction of growth
- then: using the cosmetic brush, the paste should be worked into the brows against direction of growth so each hair is evenly covered from root to tip.

RefectoCil Precision Brow Tweezer

For quick and gentle shaping of the Brows

The “Precision Brow Tweezer by RefectoCil” is a high-quality professional tool and suitable for any type of brow care or shaping.

It is made of stainless steel and has an ergonomically perfect shape. With the bevelled tip, even very short or fine hair can be easily grasped and removed with the base, which not only allows the most precise work, but also makes plucking faster and painless. In addition: for optimal hygiene standards, the product can be sterilized.

For this product, RefectoCil engaged in a cooperation with canal®, an Austrian family-owned company known for its high-quality professional instruments for manicure, pedicure and oral hygiene.

Specific product characteristics

- Stainless steel
- Bevelled tip
- Ergonomic shape of the tweezers
- Hand-ground gripping surfaces

GROUP DATA SHEET EYE PENCIL

Please never pass on this group data sheet alone but always together with the corresponding general information and the attached list of Poison Control Centres.

Last modified: 2016-02-16

Corresponding frame formulation (CPNP): 7.18-2013

1. Identification of the product

Product mainly consisting of waxes, fats, oils with the admixture of colour agents, colour additives and silicones. The eyeliner pencil is used to outline the eyes.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EC Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possibly to commercial uses.

3. Composition (maximum levels)

Oils (e.g. vegetable and/or mineral), waxes and fats (e.g. long-chain alcohols) 70 %; Liquid PARAFFIN and isoparaffin (e.g. branched chain isoparaffin (C11-C16), ISODODECANE, ISOHEXADECANE) 50 %; Colorants, colour additives (e.g. opacifying / pearlescent agents) 50 %; Silicones including volatile silicones (e.g. CYCLOPENTASILOXANE, DIMETHICONE) 50 %; Bulking agents (e.g. TALC) 30 %; Polymers, resins (e.g. nylon) 20 %; Anionic / amphoteric / non-ionic surfactants (e.g. POLYSORBATE 60, PEG-6 SORBITANSTEARATE) 5 %; UV filters 5 %; Additional ingredients (e.g. vitamins, plant extracts, antioxidants) 5 %; Preservatives, antimicrobials 1 %; PARFUM 0.3 %.

4. First aid measures

Measures in the event of

– Inadvertent contact with eyes: rinse thoroughly with plenty of lukewarm water immediately; if irritation persists, consult ophthalmologist as a precautionary measure.

– Inadvertent ingestion of larger amounts: do not induce vomiting. Rinse out mouth and drink about one glass of water. Where appropriate, consult Poison Control Centre or doctor.

When consulting a doctor or a Poison Control Centre always have packaging or label and possibly package insert available.

5. Fire fighting measures

All common extinguishing agents are suitable.

6. Accidental release measures; disposal considerations

Unused products must be disposed of separately in accordance with the waste management directives of the municipality.

7. Handling and storage

Observe any instructions for use and/or warnings on the packaging.

Store in a cool and dry place (room temperature).

8. Other information

Refer to conditions of use and any warnings on the product or packaging.

For consultation in the event of poisoning, the Poison Control Centres have additional details about the individual products. When consulting a Poison Control Centre always keep packaging or label and possibly package insert available.

GROUP DATA SHEET EYE SHADOW AND BLUSHER (ANHYDROUS) – CREAM, STICK, POWDER

Please never pass on this group data sheet alone but always together with the corresponding general information and the attached list of Poison Control Centres.

Last modified: 2016-02-16

Corresponding frame formulation (CPNP): 7.17-2013

1. Identification of the product

Water-free formulation (cream, stick, powder) mainly on an oil or silicone basis with colour pigments and fillers to colour the eyelids.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EC Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possibly to commercial uses.

3. Composition (maximum levels)

Oils (e.g. vegetable and/or mineral), waxes and fats (e.g. long-chain alcohols) 70 %; Silicones including volatile silicones (e.g. CYCLOPENTASILOXANE, DIMETHICONE) 70 %; Colorants, colour additives (e.g. opacifying / pearlescent agents) 60 %; Liquid PARAFFIN and isoparaffin (e.g. branched chain isoparaffin (C11-C16), ISODODECANE, ISOHEXADECANE) 50 %; Bulking agents (e.g. TALC, SILICA, nylon powder) 40 %; Thickeners (e.g. STEARALKONIUM HECTORITE) 15 %; Film forming polymers (e.g. VP/HEXADECENE COPOLYMER) 15 %; Additional ingredients (e.g. vitamins, plant extracts, antioxidants, UV filters) 5 %; Preservatives, antimicrobials 1 %; PARFUM 1 %.

4. First aid measures

Measures in the event of

– Inadvertent contact with eyes: rinse thoroughly with plenty of lukewarm water immediately; if irritation persists, consult ophthalmologist as a precautionary measure.

– Inadvertent ingestion of larger amounts: do not induce vomiting. Rinse out mouth and drink about one glass of water. Where appropriate, consult Poison Control Centre or doctor.

When consulting a doctor or a Poison Control Centre always have packaging or label and possibly package insert available.

5. Fire fighting measures

All common extinguishing agents are suitable.

6. Accidental release measures; disposal considerations

In the event of spillage/leakage: mop up main volume with cloths; remove rest with plenty of water and common cleaning agent. Dispose of impregnated cloths in accordance with the waste management directives of the municipality.

Packaging should be recycled after residual emptying. Filled, unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

7. Handling and storage

Must be used in accordance with manufacturer's instructions. Observe any warnings on packaging.

Store in a cool and dry place (room temperature). Reseal container after use.

8. Other information

Refer to conditions of use and any warnings on the product or packaging. For consultation in the event of poisoning, the Poison Control Centres have additional details about the individual products. When consulting a Poison Control Centre always keep packaging or label and possibly package insert available

RefectoCil

Intense Brow[n]s

RefectoCil Intense Brow[n]s Intensifying Primer – Medium

15 ml.

For a more intense make up effect and longer lasting results

The Intense Brow[n]s Intensifying Primer prepares the skin for even tinting. Choose the Intensifying Primer Medium for a softer skin staining effect.

- Lasts for up to 6 weeks
- Dermatologically & ophthalmologically tested
- Semi-permanent make-up effect for fuller looking brows
- Not tested on animals

RefectoCil

Intense Brow[n]s

General Information

1. Identification of the product

Mixture of natural plant extracts on a gel basis for use in combination with silver nitrate containing developer components. Contrary to oxidative dyeing systems, components must not be mixed but applied one after the other.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EU Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possible commercial uses.

No health hazards are known; nevertheless an allergy test is recommended as a precautionary measure.

3. First aid measures

Measures in the event of

- Contact with eyes: rinse thoroughly with plenty of lukewarm water immediately (remove contact lenses); then consult a doctor (ophthalmologist) without delay.
- Ingestion of larger amounts: do not induce vomiting. Rinse out mouth and drink about one to two glasses of water. Where appropriate, consult competent Poison Control Centre or doctor.
- Contact with skin: immediately wash off with water and soap; skincare. If skin irritation occurs, consult doctor.

When consulting a doctor or a Poison Control Centre always have packaging or label and possibly package insert available.

4. Fire fighting measures

All common extinguishing agents are suitable.

5. Accidental release measures; disposal considerations

In the event of spillage/leakage: mop up main volume with cloths; when larger amounts are involved, dispose of cloths or mopping up material by controlled disposal. Remove rest with water and common cleaning agent. Wear suitable protective gloves (see 6.)

Packaging should be recycled after residual emptying. Filled, unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

6. Handling and storage

Must be used in accordance with manufacturer's instructions, wear gloves (single-use gloves in accordance with DIN EN 374 of PVC or nitrile). Avoid contact with textiles. Observe any warnings on packaging.

Avoid contact with eyes or facial skin.

Close container after use. Store in a cool and dry place (not above room temperature).

7. Other information

Refer to conditions of use and any warnings on the product or packaging.

For consultation in the event of poisoning, the Poison Control Centres have additional details about the individual products. When consulting a Poison Control Centre always keep packaging or label and possibly package insert available.

General Information

1. Identification of the product

Mixture of natural plant extracts on a gel basis for use in combination with silver nitrate containing developer components. Contrary to oxidative dyeing systems, components must not be mixed but applied one after the other.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EU Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possible commercial uses.

No health hazards are known; nevertheless an allergy test is recommended as a precautionary measure.

3. First aid measures

Measures in the event of

- Contact with eyes: rinse thoroughly with plenty of lukewarm water immediately (remove contact lenses); then consult a doctor (ophthalmologist) without delay.
- Ingestion of larger amounts: do not induce vomiting. Rinse out mouth and drink about one to two glasses of water. Where appropriate, consult competent Poison Control Centre or doctor.
- Contact with skin: immediately wash off with water and soap; skincare. If skin irritation occurs, consult doctor.

When consulting a doctor or a Poison Control Centre always have packaging or label and possibly package insert available.

4. Fire fighting measures

All common extinguishing agents are suitable.

5. Accidental release measures; disposal considerations

In the event of spillage/leakage: mop up main volume with cloths; when larger amounts are involved, dispose of cloths or mopping up material by controlled disposal. Remove rest with water and common cleaning agent. Wear suitable protective gloves (see 6.)

Packaging should be recycled after residual emptying. Filled, unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

6. Handling and storage

Must be used in accordance with manufacturer's instructions, wear gloves (single-use gloves in accordance with DIN EN 374 of PVC or nitrile). Avoid contact with textiles. Observe any warnings on packaging.

Avoid contact with eyes or facial skin.

Close container after use. Store in a cool and dry place (not above room temperature).

7. Other information

Refer to conditions of use and any warnings on the product or packaging.

For consultation in the event of poisoning, the Poison Control Centres have additional details about the individual products. When consulting a Poison Control Centre always keep packaging or label and possibly package insert available.

RefectoCil

RefectoCil Intense Brow[n]s Activator Gel 15ml

The easy to use RefectoCil Intense Brow[n]s Activator Gel produces the desired colour result in combination with RefectoCil Intense Brow[n]s Base Gels.

The Activator Gel contains Silver Nitrate that tints brows and lashes from deep within. The Activator Gel lets the hair appear to be very dark, however, this is not the final tinting result.

- Lasts for up to 6 weeks
- Dermatologically & ophthalmologically tested
- Not tested on animals

Application:

- Lash Tinting: Attach RefectoCil Silicone Pads or RefectoCil Eye Care Pads with RefectoCil Skin Protection Cream & Eye Mask
- FOR BROWS ONLY! Optionally apply RefectoCil Intense Brow[n]s™ Intensifying Primer (Strong or Medium) to the brow area and skin– leave on for 4 minutes and remove with dry Q-tip
DRYING TIME before next step: 4 minutes
- **Step 1:** Apply Intense Brow[n]s™ Base Gel – leave on for 2 minutes and remove with dry Q-tip
DRYING TIME before next step: 4 minutes
- **Step 2:** Apply Intense Brow[n]s™ Activator Gel – leave on for 1 minute and remove with moist cotton ball - done!

Additional information:

- Please only use with RefectoCil Intense Brow[n]s™ tints!
- Don't mix Intensifying Primer, Base Gel and Activator Gel. They gels are applied in sequence.
- Before application, make sure that the Base gel has been removed thoroughly. Residues could affect the tinting process negatively.

General Information

1. Identification of the product

Silver nitrate and auxiliary components in a gel basis for use in combination with appropriate colour components. Contrary to oxidative dyeing systems, components must not be mixed but applied one after the other.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EU Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possible commercial uses. The product may cause slight cauterizations on contact with eyes or on prolonged contact with skin. It causes discolorations (brown stains) on skin.

3. First aid measures

Measures in the event of

- Contact with eyes: rinse immediately with plenty of lukewarm water (remove contact lenses); then consult a doctor (ophthalmologist) without delay.
- Ingestion: drink a quantity of salt water and seek medical aid. Do not induce vomiting.
- Contact with skin: immediately rub skin with table salt and a little water if skin discoloration occurs, it will disappear within a few days. If skin irritation occurs, consult a doctor.

When consulting a doctor or a Poison Control Centre always have packaging or label and possibly package insert available.

4. Fire fighting measures

All common extinguishing agents are suitable.

5. Accidental release measures; disposal considerations

In the event of spillage/leakage: immediately wash up the spilled area with salt water, and then mop up with cloths. Dispose of cloths or mopping up material by controlled disposal. Remove rest with water and common cleaning agent. Wear suitable protective gloves (see 6.)

Packaging should be recycled after residual emptying. Filled, unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

6. Handling and storage

Must be used in accordance with manufacturer's instructions, wear gloves (single-use gloves in accordance with DIN EN 374 of PVC or nitrile). Avoid contact with textiles. Observe any warnings on packaging.

Avoid contact with eyes or facial skin.

Store in a dry place not above room temperature. Close tube immediately after use. Do not unnecessarily expose the product to sunlight or other strong light sources.

7. Other information

Refer to conditions of use and any warnings on the product or packaging.

For consultation in the event of poisoning, the Poison Control Centres have additional details about the individual products. When consulting a Poison Control Centre always keep packaging or label and possibly package insert available.

RefectoCil Intense Brow[n]s

RefectoCil Intense Brow[n]s Tint Remover 150 ml.

Gentle tint remover for RefectoCil Intense Brow[n]s

The perfect product to clean unwanted skin staining and to create an ombre effect.

Remove any unwanted stains that occurred during the tinting process or correct the shape with RefectoCil Intense Brow[n]s Tint Remover. Thanks to the mild formula, it can be applied in the sensitive eye area without concern. Therefore, removing stains on the upper or lower eyelids is possible.

- Dermatologically & ophthalmologically tested.

Application:

Gently rub stains with a cotton ball or Q-tip moisturized with Intense Brow[n]s Tint remover immediately after tinting.

Attention:

- RefectoCil Intense Brow[n]s Tint remover only removes stains which developed from RefectoCil Intense Brow[n]s products.
- The quicker the stain is treated the easier its removal.
